6A. Masterplan Updates – Project Leaders:

i) **Highways:** The next Highways meeting is 28 January at 6pm.

ii) **Parkhill:** Residents of Hollyhock Terrace have asked if their pathway can be highlighted for repair.

iii) **Community Centre:** The plans and specifications for the outside were submitted to the Planning department on Friday 11 January. The pantomime Aladdin was well attended and enjoyed by everyone.

Tenders for the outside work are being asked for in February.

The WOW (Wellness on Wheels) gym (plus generator) has attracted a lot of interest.

The next board meeting is on *Wednesday 30 January* when all group representatives should attend.

Computer for beginners – the course includes an introduction to the internet.

It will be held on Tuesday evenings from February. Contact Ian Boseley on ianboseley@hotmail.com

iv) **Youth Centre:** Youth workers report.

The Wellness on Wheels community gym has had a fantastic response from the young people – far better than imagined. Some NEET young people spend up to 4 hours a day there and have shown an interest in becoming volunteers if the Youth Centre gym is opened as a Community Gym. A lot of girls have joined as they have an interest in the cardio-vascular machines. The workers in WOW have said ‘the initial response here in Bowburn is massive, the most I’ve seen join up so quickly’. This bodes well for the Youth Club gym.

The young people are focusing on ‘healthy lifestyle’ projects which include – staying safe with drugs and alcohol; healthy eating; and physical activity.

There is a press release on the first “Six months of success for Bowburn’s junior Youthie”

v) **Environment:** > Street Lighting from Broadmeadows: we are still awaiting the costs.

vi) Park Project: The maintenance of the Bowling Green is still under review. CISWO has been contacted concerning the bungalow to see if some action can be taken to resolve this matter.

vii) Regeneration Fund: *Julie Anson is still waiting for the final payment for Broadmeadows lights and then a decision can be made about spending the monies on projects from the Masterplan.*

viii) Planning: Cllr Blakey did not take part in the following discussion:

Planning application for housing off Grangepark Crescent, Bowburn.

Henry Jones, senior planner, is looking into this application and sent the following information:

>Regarding the potential school expansion, I am seeking to gain more information on this from my line managers and also from my Planning Policy colleagues. The site is not allocated for a school expansion within either the present Local Plan or the preferred options on the County Durham Plan. Therefore my view at this stage is that limited weight could likely be attributed to the potential need to retain the site for a school expansion. However, please note this is my officer view at this moment - I may well from further discussions with others in the Council learn more on this matter which may affect this opinion.

>I have spoken with the agent about the potential access to future development. The agent has told me this is not supposed to suggest a future residential development or anything of that nature. It is proposed to indicate a vehicular access for the benefit of the school gaining access to the fields beyond the site for whatever purposes they need. This vehicular access is shown on the layout plan.

>My understanding is that this part of the field was not designated as a playing field. However, I will also look to gain more clarity on this.

>The site is not included as a housing site within the preferred options of the new County Durham Plan. I have received a further response from the agent regarding the Bowburn Masterplan. The agent effectively agrees that the site was not specifically identified within the Masterplan. His reference to the "6th development" was meant to suggest this is the 6th site Keepmoat have been involved in. It was not meant to suggest that it was effectively an official identified 6th phase of the Masterplan.

It was said at this meeting:

>That the planning application will go to consultation.

>A member noted that the CLASP construction of the Junior School and the increase in numbers of children would make the need of a replacement primary school essential.

>Members noted that the 'Daisy field' had been used for football training until some 5 years ago, and there is a need for extra pitches.

The field had been in the original plans for the football ground but a large amount of funding was dependent on stringent criteria and was not followed through.

>Not a planning point, but it was pointed out that the name of the site is very similar to The Grange site on Durham Road which is confusing

ix) Housing: See above.

x) Integrate new residents: The 'Bowburn Village Information Leaflet' on going.

6B. Future Masterplan/County Durham Plan/Big Society:

Because of low numbers at this meeting it was decided to carry over this item to the February meeting.

Please bring the table of information showing 'Future Plans' for Bowburn which were discussed in the original Masterplan of 2004 and how they have progressed to the February meeting for discussion. (ALL)

ii) Parish Council:

1. Discussion re Gilesgate 11-16 school possible closure. Clerk to write to the County Council expressing concern at yet another change in 11+ education, which would once more affect Bowburn/Park Hill/ Old Quarrington and Cassop children, and disrupt education for those children who had opted to go there in 2013, unaware of the impending change.
2. Parish agreed to support Bowburn Community Centre by contributing towards the cost of the pantomime.
3. Clerk reported on information received from the County Council, showing the Parish income for next year from the County Council will be reduced by approx. £4,600 if the Parish Council's Council Tax contribution remains at the same level, and the contribution would need to rise by 19.2% to keep the Parish income stable. (This is due to changes in Revenue Support Grant from Central Government). The Parish agreed to convene a meeting of the Finance sub-committee to discuss this.

Point 3 - the main issue is that our income will be down unless we charge our Parishioners more.
