It was agreed to leave the two trees to the north, and to leave a small selection of shrubs on the SE corner, adjacent to the walk through garden - dependent on their condition. The green will be levelled, paths removed and land seeded to provide an open area of land for public use. **Janet**

Traveller access: Anti-caravan gates will be installed at the main entrance. The local councillors have offered to fund this, and Belinda Snow, Enforcement Manager, will make the necessary arrangements. 7. Current Masterplan: 7A. Regeneration Fund: Re planters: Andrew Blanckley, Highways, sent the following: "DCC has the power, under section 142 of the Highways Act 1980, to licence planting in the highway. However this section does not include the use of planters such as the ones you wish to use. Also the Highways Act 1980 dictates that planting cannot be within 15ft of the centre line of the carriageway, which would place your planters in the middle of the footpath. The placement of planters would also introduce an issue in regards to public liability, should an accident occur that involves the planters. As such the Council would not support the proposal you have put forward for the positioning of planters between the current bollards."

At this meeting it was agreed to ask Mr Blanckley (i) which planters would be suitable and (ii) putting the suggestion of railings to support baskets of flowers placed between chosen bollards. **Janet**
